

Lasting performance.
Locked-in freshness.

Amicor[®]

Amicor®

Amicor® is one of the most premium anti-microbial fibre brands in the world. Amicor® brand anti-bacterial and anti-fungal performance fibres provide effective and durable microbial control across all textile materials. The growth of microbes in textiles causes odour-problems and allergies. Amicor® brand fibre protects the textile material from these microbes and helps in preventing allergy and infections caused by some of these bacteria and fungi.

Amicor® brand is endorsed by a number of internationally renowned certifying authorities like the British Allergy Foundation (Allergy Seal of Approval, Red Cross Hospital, Barcelona [Creu Roja Catalunya]) and a measurable benchmark from the World Health Organization, which makes Amicor® the best choice for consumers.

Products that carry the Amicor® Trademark are consistent and of high quality, designed to provide a healthier living environment.
